SIGNAL PROCESSING IN THE LAND
OF ART, CULTURE AND BEAUTY

Dear Sir/Madam,

The “**33rd European Signal Processing Conference**” (EUSIPCO 2025) will be held in Isola delle Femmine - Palermo - Italy, on September 8-12, 2025. EUSIPCO is a yearly event organized by the European Association for Signal Processing (EURASIP), founded in 1978 with the purpose of improving communication between groups and individuals that work within the multidisciplinary field of signal processing in Europe and elsewhere. EUSIPCO Conference is organized annually in the period late August, early September in capital as well as smaller cities throughout Europe or even beyond. After the edition of 2018 in Rome, in 2025 it will be again in Italy, this time in the village of Isola delle Femmine - Palermo, that is the capital of Sicily, located on the western coast of the island, just in front of the Tyrrhenian Sea.

EUSIPCO is recognized as one of the premier signal processing conferences, attracting delegates and papers from all over the world, and covers a large number of applications of interest related to signal processing: just to mention a few, audio and acoustic, speech and language, image and video, multimedia, sensor array, communications, radar and sonar, compressed sensing, sparse modelling, optimization methods, machine learning, bio-medical, vision and robotics, spectral imaging, information forensics and security, power systems, education, bioinformatics and genomics, big data, internet of things, design and implementation of systems.

The Organizing Committee of 2025 edition, approved by the EURASIP BoD, sees as General co-Chairs Prof. Fulvio Gini, with University of Pisa, and Prof. Giuseppe Campobello, with University of Messina.

The Technical co-Chairs are Prof. Maria Sabrina Greco, with University of Pisa, Prof. Riccardo Leonardi, with University of Brescia and Prof. Augusto Sarti, with Polytechnic of Milan.

PALESTRA

Eusipco 2025

SIGNAL PROCESSING IN THE LAND
OF ART, CULTURE AND BEAUTY

The EUSIPCO series aims at gathering and encouraging researchers with a different background to share ideas and projects on affine areas of research. The first day (Monday) will be devoted to several tutorials which will cover several innovative aspects and specific solutions of signal processing applications. Starting from the second day (from Tuesday to Friday), the conference will offer, every day, plenary sessions, given by renowned scientists on hot topics of research and development, industry events, and several parallel scientific sessions, where participants can present their most recent results on the different topics of the conference. Using this approach, EUSIPCO2025 will present all the scientists and the experts working in the broad field of signal processing with the most recent and advanced results in the field. It will also represent an invaluable occasion to get in touch with the worldwide leaders of research, and to foster collaborations among industry, academia, and research centres.

Being a sponsor and/or an exhibitor at the European Signal Processing Conference 2025 (EUSIPCO2025) gives you the opportunity to present your company to an interested, highly qualified, and international audience.

The conference will feature a large space in a dedicated area close to the registration and poster areas, where exhibition booths will be available. Through a sponsoring and/or an exhibition program, EUSIPCO 2025 will allow your organization or company to present products, services, equipment and technology to a specific target audience. In the conference organizers' experience, exhibitions have always created opportunities for new commercial as well as scientific relations. Through the sponsorship program, your company will have its logo printed on the conference advertising material, webpage, and on the proceedings, and will have the opportunity to distribute brochures and/or other materials to delegates.

Most cordial regards

Congress Guidelines

In order to improve the organizing aspects of the Congress and to ensure the highest quality standards, the Organizing Secretariat requires the the following guidelines performed are respected:

The technical services provided for all sessions of the Congress will be managed by the official AV company; any other potential supplier proposed by the sponsoring companies will be taken into account only if the official AV company is unable to meet the same requirements.

Communication agencies called to manage the exhibition or any other aspect of the conference on behalf of the sponsoring company are requested to submit the draft project to the Organizing Secretariat for finale approval.

The distribution of corporate promotional material is forbidden outside of the relevant area of the exhibition stand. All food & beverage services provided during the Congress, served in any area of the Saracen Sands Hotel including stands, can be delivered only by the official supplier of Saracen Sands Hotel and always making a request directly to the Organizing Secretariat.

Suppliers of goods and services must be those provided for and approved by the Organizing Secretariat.

All sponsoring companies are kindly requested to abide by the Guidelines listed above.
The Organizing Secretariat is however available to consider any request of derogation to the above and to submit them to the EUSIPCO 2025 Organizing Committee for authorization.
