

33rd European Signal Processing Conference (EUSIPCO 2025)
Signal Processing in the land of art, culture and beauty

Eusipco2025

SIGNAL PROCESSING IN THE LAND
OF ART, CULTURE AND BEAUTY

Isola delle Femmine - Palermo, Italy
September 8 - 12, 2025

Call for

3-Minute PhD

Thesis Competition

Important dates:

3MT video and one-page abstract submission: **4 July 2025**

3MT shortlist announced: **10 August 2025**

3MT Co-Chairs:

Stéphanie Bidon, ISAE-SUPAERO, Université de Toulouse, France

Lucio Marcenaro, University of Genoa, Italy

Aims & Scope

After the successful past editions, the Technical Program Committee of EUSIPCO 2025 is offering a 3-Minute Thesis (3MT) contest for the eleventh consecutive year, where PhD students have three minutes to present a compelling oration on their thesis and its significance. This activity is sponsored by EURASIP. It is an exercise for students to consolidate their ideas so they can present them concisely to an audience specialized in different areas. With scientific and technical quality, EURASIP wants to promote transversal skills of PhD researchers, such as oral and presentation skills, and it also wants to help PhDs gain visibility of their work.

To PhD students: If you are devoting or have devoted 3 or more years to your PhD, you could devote 3 minutes to explain it to a more general public, we challenge you!

Submission instructions

1. **Create a video** that best explains your work in a language appropriate to a signal processing general audience. The video should not be longer than 3 minutes.

*Note that only **ONE static slide** should be presented for each video. One should follow the rules of the university of Queensland that are recalled at the end of this document (<https://threeminutethesis.uq.edu.au/resources/competition-rules>).*

*Note that “**3MT is not an exercise in trivializing research**”: accessibility to a broad audience should not be detrimental to the presentation of your scientific contributions. As such, you should ensure that you address the scientific problem/challenge of your PhD thesis and your specific contribution to it, not simply stating the problem/challenge.*

2. **Upload your video** to a site accessible by the evaluation committee. The video should be accessible for viewing and downloading. It is ok for the video to be hidden from search engines and accessible only with a private URL. However, it should not require a username/password to view. You can use, for example, DropBox, Google Drive, or your institution's web server. The video is the one that will be posted on the conference website, so please make sure it is possible to download.
3. **Submit your entry via email** with the object “EUSIPCO 2025 3MT” no later than July 4th, 2025, to the 3MT Chairs at 3mt@eusipco2025.org. Make sure you include a Title, 1-page abstract/summary, Name, Affiliation, and a link to the video location. An acknowledgment of receipt will be sent within 15 days.
4. **A shortlist of finalists** will be selected by a jury, including EUSIPCO 2025 Student Activities & 3MT Chairs and EURASIP members.

Please, address submissions or questions related to the 3MT contest to the 3MT Chairs at 3mt@eusipco2025.org

3MT Awards

The final contest will take place physically during EUSIPCO, and finalists will be expected to attend the conference in person. The three-minutes duration of the presentation will be strictly controlled. The finalists will receive complimentary registration to attend EUSIPCO (please note that this free registration cannot be used to cover accepted papers).

The audience of the contest will select a “People’s choice award” and assist the jury in selecting the winner and runner-up winner of the 3MT thesis competition. The winner and the recipient of the “People’s choice award” will be awarded a prize of 500€ each. Candidates ranking second and third will receive an award certificate. The video of the winners and runner-up will be posted online on the EURASIP website.

Rules and Previous EUSIPCO 3MT-Videos

You can find the rules for the competition here:
<https://eurasip.org/3mt-contest>

If you need inspiration, have a look at the previous 3MT contest winners:
